## THE LIBERTARIAN ALTERNATIVE

by Chris Berg

*'A thought-provoking blueprint for a freer and more responsible Australia'* TIM WILSON

There are few more stale battles in Australian politics than those that pitch right against left.

Libertarianism—the philosophy of government that pairs free market economics with social liberalism—presents a vigorous and viable political alternative to the old left-right partisan shouting match.

Offering surprising new answers to old questions such as immigration and civil rights, libertarianism provides a framework for tackling contemporary problems like privacy, the environment and technological change.

In *The Libertarian Alternative*, Chris Berg offers a new agenda for restoring individual liberty in Australia, revitalising politics and strengthening our sagging economy.

**Chris Berg** is a weekly columnist with ABC's *The Drum*, a regular contributor for *The Sunday Age*, and has been published by major papers in Australia and internationally. He is a senior fellow at the free market think tank the Institute of Public Affairs and is one of Australia's most passionate voices for free markets and individual liberty.
